

Product Overview

The LevelOne FSW-0511 is a compact 5-port Fast Ethernet Switch. It is a high-performance, cost-effective and easy to use network switch for expanding home and office networks.

Plug-and-Play Expansion of Home/Office Network

The LevelOne 5-port Fast Ethernet Switch is an easy to install “plug-and-play” switch, allowing users to either create a Local Area Network (LAN) or connect additional network devices, such network cameras, storage devices or print servers, to an established network.

Fast Ethernet Switching Architecture

The FSW-0511 delivers 200Mbps bandwidth per port and incorporates a non-blocking wire-speed switching architecture for seamless transferring of data through the network. All ports support auto-negotiation and auto-MDI/MDIX sensing, eliminating the need for crossover cables or Uplink ports. Each port can be used as general network ports or as connecting ports into a router, server, hub or another network switch.

KVM Switch

Product Overview

The KVM-0222 2-Port USB KVM Switch from LevelOne offers users with an easy to install KVM switch that can manage two computers from a single monitor, keyboard and mouse. It allows users to access, control, boot and reboot two USB-enabled computers using a single USB keyboard, mouse and monitor.

Flexible Multimedia Feature

The KVM-0222 offers users with user-programmable simultaneous or independent PC switching. This enables users to work on one computer while simultaneously using the other computer for work or fun.

The KVM-0222 supports PC and Macintosh (MAC G3, G4, iMAC) platforms.

One Keyboard, Mouse and Monitor for Two Computers

The LevelOne KVM-0222 connects two computer systems to a single USB keyboard, USB mouse and monitor.

The KVM-0222 is a Plug-and-Play KVM switch that requires no power supply. Users simply connect the KVM switch to the USB mouse and keyboard and screen ports on each computer using the included cables.

Easy to Switch between Computers

The KVM-0222 switches between computers either through the pushbuttons located on the

switch or by using keyboard hot keys. The KVM switch includes a Windows® and Mac based utility allowing users to select and monitor active PCs from their desktop as well as to configure the keyboard hotkeys for easy switching between computers.

The KVM-0222 further supports hot-plugging for easy maintenance of computers without shutting down the KVM switch or the computer. The LED display offers an “at-a-glance” status display for easy computer activity assessment.
